Weeds present In Process Subsidence Pass

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: The location has been recontoured and reclaimed. A road remains thru the location per approved variance. There has been recent noxious weed control due to many weeds that were wilted. Additional weed control may need to be performed as there were many noxious weeds observed and some that have seeded out. There are some areas of the location where vegetation has not established and there are signs of erosion. Additional seeding will need to be performed to establish perennial vegetation cover.

Corrective Action:	Comply with 1004 Rules.	Date	10/15/2021
Overall Final Reclamation	In Process	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>
