Reclamation Specialist	Until Location receives a passing final inspection, Noble will continue to monitor and manage the Location, and conduct any additional work as needed to ensure site progresses towards, and complies with COGCC 1004 standards.	08/06/2021
Reclamation Specialist	Abatement per NOAV #402453822 required Operator to submit a reclamation plan that includes at a minimum, information on timing, plant species to be sown, information detailing how Operator will comply with 1003.e.(1) to prevent invasion of undesirable plant species, and ensure desirable plant establishment on the Location. It is noted that Noble has NOT identified "plant species to be sown" as required within this reclamation plan; Noble has failed to address this requirement of the NOAV.	08/06/2021
