General Comment:

On 8/13/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Laramie Energy's Vega Unit Pad 7 location in Mesa County, Colorado.

It was observed that reclamation of the Location is not progressing towards COGCC 1004 standards

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Noxious weeds (Canada thistle, Musk thistle, Plumeless thistle) were observed on the Location/access road; several plants observed have reached maturity and have dispersed seed; additional weed management required in the 2021 growing season.

Corrective Action:

Comply with Rule 1004.e; due to seed head dispersal, additional weed management will be required during the Spring 2022 growing season, but no later than 5/31/2022.

Comment:

Historic imagery indicates the road pre-existed Location.

Records show Location was constructed, and was abandoned in 2016; at least 4 growing seasons have passed since 1004 reclamation was required.

It was observed in this inspection that the Location has been recontoured/regraded and revegetation activities have been performed; Overall reclamation is "in process", however, there are areas of the Location where vegetative establishment is not uniform; additional revegetation activities required to ensure site progresses towards 1004 standards.

Noxious weeds observed (see "Good Housekeeping").

Corrective Action: **Comply with COGCC 1004 rules; conduct additional revegetation activities on areas of the Location not progressing towards a uniform vegetative establishment. To allow for a fall seeding, a CA date of 11/15/2021 is being provided to perform reclamation work.**
