General Comment:

On 8/13/2021, Reclamation Specialist Trujillo conducted an interim reclamation and storwmatr inspection at Laramie Energy's Gunderson 20-03 Pad location in Mesa County, Colorado.

The following compliance issues were observed during this inspection:
1003: Interim reclamation

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment

COGCC Records show all active wells to be producing by 1/2018; at least 4 growing seasons have passed.

Overall interim reclamation status of the Location is "in process"; however, it was observed that there are interim areas of the Location that are not progressing towards a 1003 uniform vegetative establishment; stabilization concerns observed on eastern/western interim areas.

Additional revegetation activities required.

Corrective Action

Comply with COGCC 1003 rules; conduct additional revegetation activities on areas of the Location not progressing towards a uniform vegetative establishment. Comply with 1002.f rules and implement control measures to stabilize seeded soils, as well as areas of the Location at risk to erosion. To allow for a fall seeding, a CA date of 11/15/2021 is being provided to complete reclamation work.

Date **11/15/2021**
