General Comment:

On 8/17/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Repair/replace fence around facilities/separator by 8/25/2021. It appears two more panels are needed here, or taller fence to prevent livestock entry.

-Control location by closing gates at entrance to facilities to prevent livestock entry.

-Inspect equipment to ensure that trapped calf did not affect facility functions.

See below, and attached photos for additional detail.
