**Subject:** Release Notification

Good morning all,

This email is to serve as 24 hour notification of a release at the below referenced location. The release was discovered at approximately 16:00 on 8/30/2021.

Well: Waag 24  
API: 05-123-40352  
NESW Section 19-T7N-R65W

The release occurred on pad at the ~~Waag North NENW~~ Waag South SESW Pad Production Facility. It is estimated that approximately 1 bbl of fluid containing a mix of condensate and produced water surfaced above the flowline. The facility was immediately shut in upon discovery and no fluid left the location.

A Form 19 Initial report will be filed along with a Weld OEM Spill Report Form. The tenant farmer and land owner have been notified.

Please let me know if you have any questions.
