General Comment:**COGCC Inspection Report Summary**

On Tuesday 9/9/2021 at approximately 1300, I, Inspector Scott Ramsey, conducted a routine inspection at TEP RGU 33-36-198, at Location # 428956 in Rio Blanco county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.

C/A (battery signage) from previous inspection document # 701500585 has been completed.

During this inspection the following compliance issues were observed:

1. Unmarked dead man

2. Subsidence at tank battery risers

3. Two quad unit horizontal separators includes four glycol storage tanks, approximately 174" x 32" x 41" = 23.5 x 4, storage vessels contains no labeling to specify capacity or chemical hazard information.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
