1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment

Project area is surrounded by a fallow agricultural field and semi-rural residences.  
Revegetation is sparse within the interim reclamation areas and appears grazed, similar to surrounding field.

Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.
