Photo 1: Photos show example of the interim areas of the Locaiton. At least 4 growing seasons have passed since interim work was performed. Photos show reclamation is not progressing towards an 80% uniform, desirable perennial vegetative establishment to that of the reference are. Photo also shows soils on the interim areas are subsoils; topsoil has not been placed onto the majority of interim areas.

Inspection Photos
Operator Name: LARAMIE ENERGY LLC # 10433
Location ID: 324288

Photo 2: Photo taken from the interim areas on the northeast end of the Location. Photo shows interim areas in the foreground where topsoil was not replaced, and interim areas in the background where topsoil was replaced.
