OPERATOR COMMENTS AND SUBMITTAL

Comments	<p>Twin Bridges Resources LLC proposes to develop 2 wildcat conventional vertical helium gas wells on rangeland in rural Las Animas County. The locations are in an area heavily disturbed from existing two-track roads and a dry and abandoned oil and gas well. The development avoids impacts to public health, safety, welfare, the environment, and wildlife from the following:</p> <p>(1) These are inert helium gas wells with no known hydrocarbons or produced water. The finding is based on historical well log information.</p> <p>(2) There are no hazardous air pollutants from the helium gas wells.</p> <p>(3) The nearest residence is approximately 2.6 miles away.</p> <p>(4) There is no high priority habitat.</p> <p>(5) There will be mud drilling, fracking, or proppant.</p> <p>(6) The wells will not require any storage tanks.</p> <p>(7) The area is arid. The nearest waters are a remnant of a former manmade stock pond and an ephemeral.</p> <p>Reference area pictures will be submitted at a later date to ensure they accurately depict vegetation during the peak growing season.</p>
