

Community Outreach Plan
Oil and Gas Development Plan (OGDP) - DB Farms 40-12HZ

DESCRIPTION OF AREA

The Working Pad Surface (WPS) is in a rural farming community northwest of Platteville approximately one-half mile west of Highway 85. There are four residential building units (RBU) within 2,000 feet of the WPS owned by three different surface owners.

Residential Building Units (RBU)

| Distance | # of RBUs | # of HOBUs | School Facilities |
|-------------|-----------|------------|-------------------|
| 0-500' | 0 | 0 | 0 |
| 501-1000' | 1 | 0 | 0 |
| 1,000-2000' | 3 | 0 | 0 |

- The RBU 571 feet from the WPS is owned by the surface owner and occupied by a tenant
- There are three additional RBU between 1,500' and 2,000'

Block Group Demographics:

Block: 18001

Minority: 27.7%

Linguistic Isolation: 2.5%

PLANNED COMMUNITY CONSULTATION

Because the area is not linguistically isolated (2.5%), and all owners and tenants within 2,000 feet speak English as their primary language, we will send all notices and communications in English. The stakeholder will be available to owners and tenants during daytime and evening hours and will provide interpretation services if requested.

We will consider owners and tenant's suggested mitigation measures and concerns related to public health, safety, welfare.

Throughout Local Permitting:

- We have and will continue engage with owners and tenants within 2,000 feet of the WPS and will be sending them a packet of information on the proposed project. This packet will include the following information:
 - Description and map of the physical siting of the proposed location, including legal description
 - A description, proposed timeline, and expected duration of different operations that are planned, including construction, drilling, completions, production, and reclamation
 - The number and orientation of wells, types of equipment, and infrastructure related to anticipated operations
 - A description of each stage of operation along with a description of our best management practices to mitigate potential impacts including noise, light, odor, dust, traffic, and visual
 - Contact information for our Stakeholder Relations team
- We have and will continue to inform and engage with residents beyond 2,000 feet of the WPS as necessary including stakeholders who reach out with questions or concerns and in some cases stakeholders who live in close proximity to the haul routes.

After COGCC Oil & Gas Development Plan (OGDP) Application Submission:

- Send the Completeness Determination Notice as described in Rule 303.e
- Complete any additional consultation as required under Rule 309.c
- Continue to engage with all owners and tenants within 2,000 feet of the WPS prior to the OGDP hearing

Prior to and after commencement of operations:

- Continue to proactively engage with owners and tenants within 2,000 feet to provide updates on progress of development and to answer questions or discuss concerns
- Send all required COGCC notices related to the permitting process. In addition, the Stakeholder Relations team frequently sends courtesy notices to owners and tenants to ensure they have the most up to date information about our operations
- Throughout the lifecycle of development, production and interim and final reclamation, our Stakeholder Relations team is available to assist stakeholders at 866.248.9577 or via email at ColoradoStakeholder@oxy.com Monday through Friday. Our 24-hour Integrated Operations Center can also be reached at 970.515.1500
