General Comment:

On 9/7/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Remove and properly dispose of weed debris by 10/8/2021.

See below, and attached photos for additional detail.

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment

Vegetation within the project area is sparse and appears grazed. Per 2015 communication with surface owner and operator, surface owner has taken responsibility for stored debris along the eastern edge of the working area. This correspondence was completed in response to a 2015 inspection and before guidance on interim reclamation waivers was provided in 2017.

Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.
