Comments:

The former Jefferson 1 well (API: 05-121-10675) was P&A'd on October 28, 2002 according to Form 6 Document Number 01335091. On July 16, 2021, WSP conducted a final reclamation inspection for the former Jefferson 1 well pad (Location ID: 404461). The reclaimed location is situated on non-irrigated rangeland and has been returned to that land use. A modified step-point vegetation survey was conducted on the reclaimed well pad and on adjacent reference areas for comparison. Foliar and basal cover, along with non-vegetated, and noxious weed occurrences were documented. No noxious weeds were observed and undesirable species, if present, were excluded from the vegetative coverage calculation. Photographs of the P&A location were taken facing each cardinal direction from the P&A wellhead location.
