Corrective Action: Containers that are used to store, treat, or otherwise handle a hazardous material and which are required to be marked, placarded, or labeled.

Date: 10/11/2021

Response: CA COMPLETED

Date of Completion: 09/14/2021

Operator Comment: A separator is not a "tank or container" per COGCC definitions in Section 100 where separators are specifically excluded from the definition of a tank. Therefore, the labeling requirements of Rule 605.h "Tank and Container Labels," do not apply. Further, the glycol used in our separators is not a DOT-regulated hazardous material; therefore, Rule 605.h.(3) does not apply.
