**General Comment:**

On 9/16/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

Corrective action from December 2019 inspection to control weeds is partially addressed as roadside and well pad weeds were mowed. However, tall Russian thistle weeds and weed debris is observed on the well pad and around the wellhead.

-Remove and properly dispose of weed debris by 10/20/2021, manage weeds to prevent debris.

See below, and attached photos for additional detail.

<p>Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.</p>
