**General Comment:****COGCC Inspection Report Summary**

On Monday 9/27/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Last Dance 9-3, at Location # 324247 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.

C/A (location stabilization) from previous inspection document # 700702568 has not been completed. Some areas of location show signs of stabilization.

During this inspection the following compliance issues were observed:

1. Areas of location still show signs of lack of stabilization/compaction (C/A date remains 5/12/2021)
2. ECD is unused/stored equipment

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
