Subject: PA 22-35 Tank Hatch - Closed
Attachments: PA 22-35 tank hatch 093021.jpg

Importance: High

Corey,

Just wanted to close the loop with you on this open tank hatch at the PA 22-35 location. We received notification of your call from our call center at 1:21 p.m. today, and responded to the call immediately. We dispatched field personnel to the location and the hatch was closed at 1:50 p.m. today (9/30/21) ... see attached photo. Thanks for the heads-up on this. We will use this to reiterate to our haulers the importance / need to keep hatches closed.

In addition to the 24-hour number, please feel free to call me direct if you find anything in the field that needs immediate attention. My contact information is provided below.
