**General Comment:**

COGCC Inspection Report Summary  
 On Tuesday 10/5/2021 at approximately 1300, I, Inspector Scott Ramsey, conducted a routine inspection at TEP RG FED 4D-34D, at Location # 420072 in Rio Blanco county Colorado.  
 While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.  
 During this inspection the following compliance issues were observed:  
 1. Lack of battery signage.  
 2. Random debris at tank battery  
 3. One unit horizontal separators includes 1 glycol storage tanks, approximately 84" x 34" x 37" = 10 BBLS each, storage vessels contain no labeling to specify capacity or chemical hazard information.  
 4. Cut slope shows signs of lack of stabilization/erosion  
 5. Missing load out line bull plug/cap.  
 Refer to photograph of observed compliance issue.  
 A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.  
 This is a summary of inspection report.
