General Comment:

COGCC Inspection Report Summary
 On Thursday 10/14/2021 at approximately 1200, I, Inspector Scott Ramsey, conducted a routine inspection at TEP Loughan, at Location # 335439 in Garfield county Colorado.
 While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.
 During this inspection the following compliance issues were observed:
 1. Some areas of location show signs of lack of stabilization and erosion
 2. Unused /stored ECD
 Refer to photograph of observed compliance issue.
 A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.
 This is a summary of inspection report.
