General Comment:

On 10/22/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Stormwater and erosion controls need to be installed to stabilize erosion and prevent sediment discharge, by 11/25/2021. Stormwater and erosion controls need to be selected, sized, installed, and maintained according to good engineering practices such as those described by CDOT in their erosion control manuals

See below, and attached photos for additional detail.
