

DC-16 CO₂ Production Well Access Road Photos

API #05-033-06185 / Facility ID #463479

INSP# 693903732 / FIRR# 402859063

Slope was broadcast seeded and covered with a certified weed free straw.

Soil amendments were applied to the slope and the slope was seeded with a landowner-approved seed mix. The slope was then covered with hydromulch to stabilize the slope.
