1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: The location was reclaimed in the fall of 2019. Perennial vegetation is progressing throughout most of the location. There are some areas that will need additional vegetation establishment and could benefit from additional seeding. The stormwater BMP's are maintained and no erosion issues were observed. Continue to monitor and manage the location until final reclamation is achieved.
