Hi Curtis,

Here is the CBL for the Gittlein Blue D04-08. We will file and submit it to the COGCC but wanted to share it with you now as well. Based on the log, we would like to move the 100' plug from 3879'-3979' up to 3850'-3950' to ensure we can squeeze behind casing.

Thank you,

Grace Howley

Planning and Design Engineer
