4	Any BMPs Repaired or Maintained?	X		
5	Any New BMPs Installed?	X		
6	Any Hazardous Materials Spilled or Leaked?		X	
7	Any Deviation from the Minimum Inspection Schedule?		X	

Comments / Descriptions / Explanations
<p>Two BMP crews operated on the Cascade Creek 603-23-32 pad after completing operations on the Cascade Creek 697-16-28 location. These actions corrected issues identified in COGCC Document #696203331. A skid steer and mini-ex were used to install/improve an earthen berm located above the fill slope on the southern end of the location. Disturbed areas were broadcast seeded with 8 pounds of Upper Cascade Seed Mix and QuickGuard. These actions corrected the issue identified in the report as Photo #4. The crews also inspected and maintained excelsior wattle installed previously.</p>
