Comment	User	Date
On November 18, 2021 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the Benson-Montin-Greer La Posta Canyon #4. For the most recent field inspection report of this facility, please refer to document #693903445. COGCC Western Integrity Inspector Richard Murray was on site during this inspection. A construction crew was performing work associated with REM #20746. The PBV contained fluids and was unable to be moved at the time of this inspection. The wellhead had been cut off and a PA marker welded on. Flow lines were to be excavated and removed at a later date. Equipment from the BMG Drilling La Posta Canyon #2 was being temporarily stored on location to make room for PA operations on that location.	hughesjo	11/22/2021
