General Comment:

environmental inspection of former tank battery site at which spill 480398 reported by operator as part of closure process. Site investigation and remediation project 18896 ongoing at site of spill.

Contractor on site, signed JSA after discussion with contractors about site and safety measures in use.

Excavation mostly fenced with some fencing removed to allow access to excavation by contractor.

Environmental**Spill/Remediation:**

Comment: remediation project 18896 ongoing at site of spill . Contractors were present at time of inspection with some portions of fencing removed so equipment could access open excavation. Concrete Jersey barriers around north side of site as WCR 36 is nearby to north. Netting also over portion of open excavation as seen in attached photo
