**Inspected Facilities:**

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
149021	CENTRALIZED EP WASTE MGMT FAC	AC	07/16/2008		-	DRILLING FLUID MANAGEMENT FACILITY	EI

**General Comment:**

Site is no longer in use for treatment or disposal of water based drill fluids and/or cuttings.

Ongoing site investigation and remediation project 18646 is open to document the closure of the centralized E&P waste management facility.

Attached photos document conditions at the facility. All areas used as part of the E&P waste management facility have been tilled and all appear to have been seeded with some germination noted at this time. Photos were taken from active well locations on the property.

Retention pond at southwest corner has been removed and has also been tilled and seeded,

Inspected Facilities
