

Rule 909.j Produced Water Quality Analysis

Request for Alternative Sampling Program

Renegade Oil & Gas Company, LLC (Operator No. 74165) requests an alternative sampling program in accordance with COGCC rule and guidance for produced water produced from the same formation(s) in the same Field or unit to the same Pit.

Pit: Ferguson 25 Pit – Facility Number 113219

Field: Irondale – Field Number 39350

Producing Formations: D Sand and J Sand

Wells:

Ferguson #1-25 – API Number 05-001-06482	D & J
Ferguson #2-25 – API Number 05-001-06475	D & J
Ferguson #3-25 – API Number 05-001-06499	J
Ferguson #4-25 – API Number 05-001-06501	D & J
Ferguson #5-25 – API Number 05-001-06513	D
Ferguson #6-25 – API Number 05-001-06523	D & J
Ferguson #7-25 – API Number 05-001-08792	J

Location: W/2 and SE/4 of Section 25, T2S, R62W – 480 acres  
Adams County

The 7 wells all produce from the same formation(s) (D Sand and J Sand) in the same field (Irondale) into the same pit in a small geographic area of 480 acres.

Attached are a map and aerial photo detailing the onsite equipment and flow path.

Renegade will take a sample from the discharge of the skim tank right before the commingled water enters the pit.

Renegade will collect samples according to standard environmental procedures.
