General Comment:

FLIR inspection in response to compliant 402880151. The complainant claimed emissions were observed from tank battery. Emissions were observed from the southeast tank in the battery during COGCC FLIR inspection. Inspector contacted D90 on 12/2/2021 and informed them of the observed emissions. D90 assured inspector that emissions would be addressed immediately. D90 expressed concern of trespassing and tampering during this conversation. Inspector recommended contacting the local sheriff and installing additional security measures on location if tampering/trespass was a safety concern.
