**2** CA# 158377

Corrective Action: Comply with Rule 434.a.(5).

Date: 04/06/2022

Response: CA COMPLETED

Date of Completion: 09/11/2021

Operator Comment: SG believes the correct identifying inscription as required by Rule 434.a.(5) exists on the steel plate welded to the top of the casing of the plugged and abandoned well. Multiple SG employees and contractors viewed the steel plate on separate dates. Please see the attached photo documentation of the plate and the Daily Report from the PA crew that states the required information was welded on the plate. At the time SG received the Field Inspection Report (12/06/2021) related to this issue, earth moving related to final reclamation had been completed, and the steel plate is now buried under approximately 8-10' of soil. If COGCC is not satisfied with the attached documentation, SG requests that we be allowed to conduct work to confirm compliance with Rule 434.a.(5) in the summer months of 2022. Currently, the location is seeded, mulched, and snow and frozen soil exist on this location.

**3** CA# 158378

Corrective Action: Ensure compliance with Rule 913.b.(5).B.

Date: 04/06/2022

Response: CA COMPLETED

Date of Completion: 12/06/2021

Operator Comment: Final Reclamation was in process when this inspection took place. At the time SG received the Field Inspection Report (12/06/2021), earth moving activities were completed and the open excavation on location where the equipment and flow lines were located had been backfilled and re-contoured. In addition, the entire location is fenced and will remain fenced until final reclamation obligations are complete by COGCC and BLM standards. Please see attached photo documentation of completed final reclamation activities including seeding and straw.
