Corrective Action:

Date: 11/30/2021

Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.

Revegetation activities shall be complete no later than 11/30/2021 or as soon as environmental conditions will permit.

#### OPERATOR COMMENT AND SUBMITTAL

Comment: To date, attempts to reach the surface owner via telephone have failed. Repeated attempts have been made to provide notice of upcoming operations and gain permission to access the property. Given the inability to be granted access, the CA outlined in the FIR has not yet been completed.

Operator is in the process of drafting correspondence to the Surface Owner for mailing via CERTIFIED MAIL. The correspondence will include written notice that the property will be accessed for the purposes of revegetation activities per the 1000-Series Rules.

Please reach out directly to Operator with questions or for additional discussion.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
