CORRECTIVE ACTIONS:

1  CA# 155770

Corrective Action: -Stormwater and erosion controls need to be installed to stabilize erosion on the well pad and access road. Stormwater and erosion controls need to be selected, sized, installed, and maintained according to good engineering practices that will ensure long-term stabilization such as those described by CDOT in their erosion control manuals. Erosion controls such as mulch, straw blanket etc. need to be installed and maintained until eroding areas are stabilized with desirable perennial vegetation. Response to 2020 corrective action to address stormwater erosion on the access road is inadequate. Corrective action date: 10/10/2021.

Date: 10/10/2021

Response: CA COMPLETED

Date of Completion: 10/04/2021
