<p>On Thursday 12/16/2021 at approximately 1325 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection at a KP Kauffman location: Follow up inspection to Doc # 699304337.                      R.S. Vincent Unit 1 at API #05-123-08589 in Weld County Colorado.                      While there, I observed a wellsite and tank battery, PR/AC at time of inspection.                      During this inspection the following possible compliance issue has been addressed:                      430 Gas Measurement: Card has been updated showing current calibration.                      See attached photos.                      Location: dry, Weather: clear.                      No follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p>	revasr	12/16/2021
