Subject: O1E COGCC Spill DOC 1943574 - Closure Request
To: Araza - DNR, Steven <steven.arauza@state.co.us>
Cc: Brett Middleton <bmiddleton@caerusoilandgas.com>

Steven,

Upon review of COGCC spill document number 1943574, Caerus determined the following information regarding the spill:

- Spill 1943574 was a spill of drilling mud onto the location surface
- The spilled drilling mud was immediately captured and returned to the drilling mud tanks for continued use

Location	COGCC Location ID	Field - Route	Remediation Type: (briefly describe the E&P material)	Facility/ Spill ID	Form 19 Submittal Date	Historic Spill DOC# relating	Remediation / Compliance Status Notes / Notes on Permit Requirements and Submittals Responsible for Document Prep - Due Date
TWIN CREEK-67S92W 1SWSE (o1E)	334939	MAMM CREEK	DRILLING MUD SPILL	299474	4/18/2009	1943574	10bbl Drilling mud spilled onto surface - 10bbl immediately recovered

Caerus has continued operation of the location following recovery of the spilled drilling mud. During pad reclamation and closure, Caerus will undergo a final pad review process to ensure threats to potential receptors are identified and removed or mitigated. This process includes review of historic spills and releases, sampling, and coordination with reclamation and construction staff for reclamation requirements.

Based on the information provided above, Caerus requests closure of COGCC Spill Document Number 1943574. Please let me know if you have any questions regarding the provided information.

Thank you,

Blair Rollins
