**General Comment:**

This is a Construction and Stormwater Inspection in response to Form 42: Notice of construction- Document # 402847291.

**Location Construction**

Location ID: 461117 CDP: \_\_\_\_\_

**Comment:** Per Rule 405, no Form 42 may be submitted more than 2 weeks prior to the scheduled activity, unless a longer timeframe is specified by another Commission Rule. Operator submitted the Form 42 with a start date of 10/25/2021. It appears construction activities have recently commenced. In the future, Operator shall resubmit a Form 42 in compliance with Rule 405 and 406. This notice also goes out to the relevant and proximate local government and CPW; therefore, it needs to be accurate.

Date: \_\_\_\_\_

**Form 2A COAs:**

**Comment:** Per Rule 406.c. (effective 1/15/2021), a copy of the approved Form 2A, and any Form 4 modifying the approved Form 2A, will be posted in a protected and conspicuous place on location upon commencement of operations with heavy equipment until the conclusion of interim reclamation.

At the time of this inspection, this was not observed.

Corrective Action: Comply with Rule 406.c.

Comment: Temporary BMPs have been installed (ditch and berm) around the entire perimeter during the construction phase of the location. More permanent BMPs should be installed upon the completion of pad construction. A follow-up stormwater inspection will be conducted at a future date to ensure compliance with Rule 1002.f. standards. Refer to the COGCC Comments section for additional stormwater compliance information.

**COGCC Comments**

Comment	User	Date
Per Rule 1002.f., oil and gas operators shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation. BMPs shall be maintained until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004. Operators shall employ BMPs, as necessary to comply with this rule, at all oil and gas locations, including, but not limited to, well pads, soil stock piles, access roads, tank batteries, compressor stations, and pipeline rights of way. BMPs shall be selected based on site specific conditions, such as slope, vegetation cover, and proximity to water bodies, and may include maintaining in-place some or all of the BMPs installed during the construction phase of the facility. Where applicable based on site-specific conditions, operators shall implement BMPs in accordance with good engineering practices.	binschusc	12/16/2021
