Impacted?	Impacted Media	Extent of Impact	How Determined
Yes	SOILS	to be further delineated	Field investigation and soil sampling

### INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

See Colorado Oil and Gas Conservation Commission (COGCC) Document Number 4029091931 for initial actions completed. The attached Report of Work Completed (ROWC) details initial abandonment characterization activities and results associated with the abandonment of the USA PICEANCE CREEK #T73-11G (API# 103-08181) well and associated well head line.

### PROPOSED SAMPLING PLAN

#### Proposed Soil Sampling

Will soil samples be collected as part of this investigation? ( Number, type (grab/composite), analyses, and locations of samples ):

Additional confirmation soil samples will be collected from the base and all sidewalls once excavation activities are complete surrounding the abandoned production infrastructure. Investigation activities will be directed by field personnel who characterized the soil using visual and olfactory observations and field screen soil samples for volatile organic compounds using a photoionization detector (PID). The attached ROWC details the recommended/planned source removal activities. Based on laboratory analytical results of the initial characterization sampling, Caerus is requesting a reduced analyte suite of TPH, total xylenes, benzo(A)anthracene, benzo(B)anthracene, 1,2,4- trimethylbenzene, 1,3,5 trimethylbenzene, 1-methylnaphthalene, 2-methylnaphthalene, naphthalene, cadmium, copper, lead, and pH for all future confirmation soil samples.

#### Proposed Groundwater Sampling

Will groundwater samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

#### Proposed Surface Water Sampling

Will surface water samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

### Additional Investigative Actions

Additional alternative investigative actions described in attached Site Investigation Plan ( summary ):

Please see "Proposed Soil Sampling" section of this form for details.
