Re: Buchleiter #1 10-8N-54W
Buczowskyj #1 22-12N-56W
Decker #1C 18-4S-53-W

Dear Sirs/Ms:

Operations are currently in progress to plug, abandon and restore the surface on these three wells. We have submitted permit applications to plug and abandon which you should have on file. We have not, as yet, received the cement verifications from Donnelly Casing Pulling and cannot, therefore, provide the Form #4 for final P&A as you requested at this time. We should, however, have these operations completed within the next 30 days and will submit to you the final forms as soon as we receive the cement verifications.

Sincerely,

K.L. Tipps
