Response: CA COMPLETED Date of Completion: 01/04/2022

Operator Comment: Form 27 402916442 Hickert 41C-18349
This Form 27 is to provide a project update in response to the inspection Doc num: 688000585.
To date, all flowlines have been tested, flushed and are ready for abandonment, or are abandoned except for the gas gathering line owned by Smith Energy. Soils have been sampled and all results have been submitted to the

COGCC for review.

Remaining work to be completed: Apply gypsum to inorganically impacted soil and place below root zone, cover with clean soil and add organic material if available and re-seed. This work is scheduled to be completed starting the week of January 10th.

Additionally, we would like to combine Rem's 17304 and 16850 to the 16850 for simplicity and accurate record keeping if possible.
