RE: Request for Compliance with Requests for Information
#3 Chappel Fee S1/2 NE 35-12^N44W, Permit #87-848

Dear Mr. Bergquist and Mr. Weaver:

On December 22, 1987, this office requested in writing that you provide us with a copy of the electric logs and Completion Report (OGCC Form 5), at least a preliminary report, of subject well. Again, on February 9, 1988, Larry Robbins of this office called and re-requested this information. To date we have received no response.

This information was due thirty (30) days after work was performed and should not have to be requested once, much less three times. If you want this held in Confidential-Tite Hole status please request this in writing and attach it with the Completion Report and Logs.

In addition #2 Chappel and the #1 State are in need of a status update on a Sundry Notice (OGCC Form 4) which is required every six (6) months on all Shut-In or Temporarily Abandoned wells in this state. The last status report was made in July 1987 for both of these wells.

We will expect the required information within seven (7) days from receipt of this letter. If you have any questions please call on me or Dennis Bicknell.

Very truly yours,

Dave Edwards
Well Records Department
