*rec'd 4/2/90*

Dear Mr. Wieseler:

In July, 1989, the #2 Chappel well went on production. Since that time we have written to you requesting the Form 10 (Certificate of Clearance) on 8/14/89, 1/16/90 and 2/16/90. In addition I talked to you on the phone on 2/15/90 and 2/20/90 and you assured me it was "in the mail." This form was due August, 1989.

In addition, the #3 Chappel and the #1 State have not had a status reported since July, 1989, when you filed an intent to shoot or acidize these two wells. Rule 319 requires an operator to submit a Sundry Notice (OGCC Form 4) every six months requesting permission to leave a well in SI or TA status. If the work was performed, a Sundry Notice was due within thirty days of work performed.

I have included the forms required for you to file. As you may be aware, prior to you becoming Designated Agent for Mountain Energy Production Co., Inc., we experienced a total breakdown of cooperation from the company in filing routine reports and responding to our requests for information. We were under the impression that you did not want to continue this image of your company and that you were going to be more forthcoming than your predecessor. If this is not the case, please advise us in order that we may proceed with our options under the provisions of 34-60-121, Colorado Revised Statutes.

Very truly yours,

Dave Edwards  
Well Records Department
