

COGCC Inspection Report Summary

On Monday 1/10/2022 at approximately 1100, I, Inspector Scott Ramsey, conducted a routine inspection at TEP Brynildson 13C, at Location # 335379 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area and 411 water protection. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

Location and access are snow covered at the time of inspection. Plowed location.

During this inspection the following compliance issues were observed:

1. Stored Equipment (ECD)
2. Load line missing bull plug/cap.
3. Location shows some signs of lack of stabilization

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
