**General Comment:**

COGCC Inspection Report Summary  
 On Wednesday 1/12/22 at approximately 11:00 hours, I, Inspector Corey De Paolo, Conducted a follow up inspection at TEP ROCKY MOUNTAIN LLC UNOCAL-66S96W /33SWNE, Location #323990 in Garfield County Colorado.  
 Refer to document #699803323 inspection conducted on 6/30/21. Previous corrective actions have not been completed.  
 While there, I observed normal production operations.  
 During this inspection the following compliance issues were observed:

- 1) Separator units include an attached storage tank. The storage tank is approximately 2'x3'x10' with an approximate capacity of 11 bbl. The sight glass located on the side of the unit indicates the storage tank is full of an unknown fluid. No form of labeling or markers are present to identify a potential hazard or the contents of the storage tank with a corrective action date of 3/12/22.
- 2) Bird protectors missing on separator with a previous corrective action date of 7/30/21.
- 3) Location lacks stabilization. Insufficient tracking BMP at entrance to location with a corrective action date of 1/27/22.

- Location is located in a high priority habitat area. All drainages contribute to Parachute creek.

A follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules.  
 This is a summary of inspection report.
