General Comment:

On 1/11/2022 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Areas with bare/sparse vegetation on the well pad cut-slope need revegetation in coordination with stabilization measures described under stormwater below. Corrective Action Date 5/1/2022

-Stormwater BMPs and erosion controls (ie: ecofiber, straw mulch, erosion control blankets, etc.) need to be installed and maintained on the well pad cut-slope until stabilized with desirable perennial vegetation. Corrective Action Date 5/1/2022

See below, and attached photos for additional detail.
