Comment:

Corrective action is completed, see attached photos.

COGCC Decision: Approved pending re-inspection

Looking at attached photos. it it looks like the area was regraded/compacted. Compaction can be a BMP

COGCC Representative: however, what is stopping the water from leaving location? I will do a reinspection to look for adequacy of BMP to prevent water running from the wellhead and off location (e.g., maintenance of stuffing box, berm, etc.).
