13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

TEP Rocky Mountain LLC (TEP) requests to change the name for the pending RG 943-27-299 (API# 05-103-12115) APD to RG 33-22-299. This injection permit is currently in deferral status, per the Notice of Deferral letter (see attached) referencing a delay of processing APDs for the Federal RG 914-27-299D, RG 931-34-299D, and RG 943-27-299 wells (LLCON05000 (3160)). Additionally, TEP is requesting to move this injection well to the RG 299-23-3 well pad, and elects to allow the APD applications for the Federal RG 914-27-299D and RG 931-34-299D to terminate. The relocation of this APD, and subsequent name change, is intended to avoid Greater sage-grouse habitat, while utilizing an existing pad and reducing additional disturbance. Per BLM, TEP has also submitted sundries addressing new the drilling plan and updated surface use plan.

14. I hereby certify that the foregoing is true and correct.

TEP Rocky Mountain LLC
Attn: Vicki Schoeber and Whitney Szabo
1058 County Road 215
Parachute, CO 81635

Dear Mrs. Schoeber and Szabo,

This is a Notice of Deferral letter pursuant to Onshore Oil and Gas Order, Number 1, Section III.E.2.c.

In accordance with Onshore Order #1 (May 2007), the Bureau of Land Management (BLM), White River Field Office (WRFO), is notifying TEP Rocky Mountain LLC (TEP) of the deferment of the proposed Federal RG 914-27-299D, Federal RG 931-34-299D, and Federal RG 943-27-299D Applications for Permit to Drill (APD) in T 2S, R 99W, Sec 27. Processing these APDs is delayed due to necessary planning needs required to address Greater sage-grouse concerns, and the BLM will not be able to complete processing the APDs within 30 calendar days, in accordance with Onshore Order #1. The following measures need to be completed before the National Environmental Policy Act (NEPA) analysis for this proposal can be completed:

- Identify whether the APD locations can be moved out of Greater sage-grouse habitat. If the locations can be moved, submit updates to the APD, including new drilling and surface use plans. New cultural and biological surveys may be required for a new location.
- If the APD locations cannot be moved out of Greater sage-grouse habitat, submit to BLM a letter providing the justification. The APDs can then be processed in the original location, but will require mitigation measures resulting in a net benefit to Greater sage-grouse.

The deferred APDs will remain in the Bureau of Land Management White River Field Office until these issues can be addressed, or for a period not to exceed two years in compliance with Onshore Orders. Your contact for these APDs is Tracy Perfors, BLM Natural Resource Specialist, (970) 878-3811.
