**Operator Comments:**

This Form 4 for the Ferguson #7-25 is being filed to maintain communication with the COGCC regarding casinghead gas combustion at this lease's production facility and implication of the recent Mission Change rulemaking by the COGCC pursuant to Rule 903.d.(3). Renegade believes that it is compliant with all rules governing venting and flaring of natural gas (Rule 903) and this Form 4 is being filed as a courtesy. The revised rule does not accurately contemplate situations like the Third Creek Gas Gathering shut down. Combusting of this produced casinghead gas is not routine, is necessary to produce the oil reserves and therefore cannot be considered a "waste".

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
