Operator Comment: After confirming that the source of the observed emissions was the wellhead, we mobilized a rig to replace it – this work began on Tuesday (12/21) and was completed on Thursday (12/23). The original wellhead was an older style from the '40s or '50s that we replaced with a new 5-1/2" x 2-7/8" Larkin style. Wellhead is no longer leaking.

COGCC Decision: Approved pending re-inspection
