Nature of Complaint: Road condition.
Field Inspector Actions:
On 1-20-2022, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to Road conditions. The complainant Hairson DosSantos stated the issues were occurring outside of complainants home.
On 1-20-2021, I attempted to make contact with the complainant who indicated that the lease road access that runs by his property not being maintained.
I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not observe any serious BMP condition with the road there were some small potholes but road is graded and solid.
At time of inspection, there were a couple of corrective actions associated with the facility. I did state to operator potholes would need to be addressed in near future as to not lead to a failure in BMP's .
Weather conditions: Clear
Corrective actions to the COGCC rules in reference to facility not road were observed at the time of the inspection.
All information reviewed and site inspection information has been submitted to the COGCC for further review.
