August 3, 1959

Mr. W. H. Sharp  
P.O. Box 113  
Kimball, Nebraska

Dear Sir:

On April 6, 1959, we wrote you regarding January and February production, and on May 27, 1959, it was again necessary for us to write you in this regard. The January, February, March and April reports did come in; however, May and June are now past due.

In addition to these production reports, the following information is requested by August 17, 1959, on the wells listed below:

Applehans No. 1-A -- Section 8, T-7N - R-52W  
No completion report has been received  
on this well.

Kirk-Lynch No. 2 -- SW SE NW, Section 17,  
T-9N - R-53W  
The only file we have on this well is the  
intention to drill which was filed Dec. 9, 1958.

Kirk No. 3-A -- SW NE SW, Section 17, T-9N - R-53W  
The only files we have on this well are the  
intention to drill, Dec. 9, 1958, and the  
plugging record, May 4, 1959.

Kirk No. 4-A -- SW SE SW, Section 17, T-9N - R-53W  
The only file we have on this well is the  
intention to drill, December 9, 1958.

I might also point out that you are in violation of Commission rules not only because of the fact that your production reports are consistently delinquent, but the Kirk No. 3-A well was plugged without prior approval.

We do not like to feel that it is necessary for us to write you every other month in order to obtain production reports.

We hereby request that all delinquent reports be in this office on or before August 17, 1959.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION
