 Field

#1 McRoberts NW SW SE 26 9 N 53W 6th P
 (Well No.) (Lease) (1/4 Sec.) (Sec.) (Twp.) (Range) (Meridian)

The Well is located 990 Ft. (N) of Section Line and 2310 Ft. (E) of
 (S) (W) Section Line.

The elevation above sea level is Ft. Will advise later.

Details of Plan of Work: (State names of and expected depths to objective sands. Show sizes, weights, and length of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

We propose to drill a well on the above described location using rotary tools, to be known as True Oil Company, R. H. Fulton, McRoberts #1 Well. 8 5/8" 24# used casing will be set as surface casing at least 90' below the surface of the ground and will be cemented to the surface with 50 sax of cement, using an approved method.

This well will test the "D" and the "J" Sands; the "D" sand is expected at approximately 4800 feet, and the Skull Creek shale is expected at 5000 feet. If commercial production is encountered, 5 1/2" OD 14# casing will be run through the productive zone and cemented by an approved method.

Approved: AUG 26 1955
